## Section 1: Executive Summary (limit - no more than 5 pages)

### 1.1 MISSION & STRATEGIC GOALS

#### Mission

The University Library System (ULS) advances the University's strategic priorities by engagement in the enterprise of knowledge creation, teaching, and learning on our campuses and beyond. Through our expertise, information resources, facilities, and services, we catalyze partnerships and inspire intellectual discovery, critical thinking, creative expression, the free flow of ideas, and the worldwide progress of knowledge.

#### Values

At the University Library System we are guided by the Core Values of Libraries and those of the University of Pittsburgh. In everything we do, we are deeply committed to:

- Diversity
- Innovation & Creativity
- Teamwork & Collaboration
- Customer Service
- Adapting to Change and Learning

#### Goals & Strategies

Goal 1: *Be a catalyst for critical scholarly inquiry, innovation, creation and learning at the University of Pittsburgh. Strategies:*

- Develop robust understanding of the behaviors and needs of our communities.
- Weave our resources and expertise throughout the technical and social infrastructure that supports the research lifecycle at Pitt.
- Provide access to information that meets the changing needs of the University community.
- Be an advocate, partner, and resource for experiential and dynamic teaching and learning at Pitt.
- Promote our libraries as a hub for inquiry, innovation, creation, and learning.
- Integrate information skills and related critical thinking competencies into the curriculum

Goal 2: *Be a leader in active, trusted stewardship of the evolving scholarly and cultural record. Strategies:*

- Strengthen our ability to ingest, preserve, and provide access to born-digital and digitized information.
- Expand our capacity to collect, preserve, and provide access to multi-modal scholarship.
- Actively collect and preserve scholarly and cultural materials that amplify under-represented voices and global perspectives.

Goal 3: *Model and champion openness, transparency, and accessibility. Strategies:*

- Promote openness and transparency in decision making processes.
- Invest in open scholarship to enable broader access to information and more open, equitable, and academy-centered outcomes for scholarship.
- Advocate for changes in economic models in scholarly publishing.
- Provide robust public service that is accessible, inclusive, and approachable.

Goal 4: *Continuously develop and sustain a culture of professional growth, responsiveness, and accountability. Strategies:*

- Improve access to and support professional development for all ULS personnel to nurture creativity and invigorate our programs and services.
- Improve our processes to ensure efficient and effective use of our resources.
- Develop additional resources to advance our mission.
- Improve our systems for collecting, sharing, and use of data to drive informed decision-making and to demonstrate our impact.
- Develop and demonstrate expertise to deliver unique value to the Pitt community.

Goal 5: *Be active creators and connectors in local and global information networks. Strategies:*

- Increase the discoverability, visibility, and usability of the intellectual output of the University community.
- Partner where expertise is complementary and where shared goals exist to achieve mutual benefit.
- Reduce local barriers to participation in global information sharing.
- Work collectively with national and international organizations and movements to effect positive change in the scholarly ecosystem.

Goal 6: *Commit to diversity and inclusion in everything we do. Strategies:*

- Provide programming, content, and services that reflect our commitment to diversity.
- Develop diversity-focused leadership in every part of our organization.
- Create an inclusive and equitable work environment where all can reach their full potential.
- Model best practices and recruitment strategies for hiring and hosting diverse library workers.

## 1.2 MAJOR ACCOMPLISHMENTS – YEAR OVERVIEW

As you can see in the sections that follow the ULS has accomplished a great deal this past year. We highlight the items below because of their importance to the library's role in student and faculty success through programs, services, spaces, and increased staff expertise.

### **Reopening of the Hillman Library Fourth Floor** (*Advance Educational Excellence*)

The remodelled Hillman Library Fourth floor opened in September 2018 and has been extremely popular with students. In fact, the Fourth Floor was recently voted “The Best Place to Study on Campus” by Pitt News readers. There, students can engage in their academic pursuits in a modern spacious location that accommodates a variety of learning styles and modes. We are actively monitoring the use of the floor through surveys, photographic studies, and other means and find that:

- 70% of students who visit Hillman's 4th Floor spend three or more hours per each visit.
- Afternoons and early evenings are the busiest times with average occupancy of the open single seat areas around 65%. During midterms and finals on the 4th floor, we note occupancy levels reaching the mid 80 to lower 90 percentages based on time and day of week.
- Individual carrels are the most popular seating arrangement, with occupancy levels reaching 100% during busy times.
- Study rooms available only to graduate students also see increased usage during the afternoons and early evenings, especially during midterms and finals, reaching occupancy highs of 51%.
- Group study rooms on the 4th floor are booked 38% more often than the study rooms on the other floors of Hillman Library.

### **Expansion to Library Offsite Storage Facility** (*Build foundational strength*)

A newly expanded, secure, climate-controlled offsite storage space with a capacity of 3.5 million volumes was completed in August 2018. This critical piece of infrastructure enables the library to reinvent space on campus to support our strategic priorities around collaboration, creation, exploration of unique collections, and the production of new forms of scholarship.

### **Increased Grant Activity** (*Build foundational strength*)

One of our strategic priorities is to develop additional resources to advance our mission. To that end we are pleased to report that grant activity in the ULS has increased significantly this year over last, and these past two years together show a substantial increase over years prior, with 25 grant applications submitted over the last two years. In this past year we have successfully received \$500,746.53 in grant funding (versus FY17 total \$224,761). We unsuccessfully applied for \$471,538.73 and have outstanding proposals for \$508,833.00.

### **Increased Curricular Engagement with Primary Sources from Archives and Special Collections (A&SC)** (*Advance Educational Excellence*)

As the ULS emphasizes the depth of our distinctive collections, we see great opportunity in their increased use, reuse, transformation, and celebration. An important gateway to these new engagements with unique collections is their use in the curriculum. In the past year the A&SC offered a total of 72 class visits during the fall and spring terms (2017-2018) to students in the Department of English, History of Art & Architecture, Department of History, History of Philosophy of Science, Department of Anthropology, and Gender, Sexuality, and Women Studies Program. This represents an increase from 64 class visits scheduled in 2017. Thus far, A&SC hosted 50 classes during the fall semester. Classroom instruction has increased by 800% since 2012.

### **Involvement in National Collections Consortia** (*Engage in Research of Impact*)

The ULS recently joined EAST (Eastern Academic Scholar's Trust), a shared print retention partnership of research libraries. In EAST, and similar initiatives, member libraries commit to preserving in perpetuity a specific segment of general collections books and journals. Together, these efforts ensure that the scholarly record is maintained and accessible, enabling libraries to make strategic collections retention and development decisions. We have been active this year in identifying specific book and journal titles that we own and will commit to retaining. Similarly, the ULS has long been a member of the Hathi Trust, a global partnership whose goal is to ensure that the cultural record is preserved and accessible. To that end Hathi not only provides a platform for digitized materials, but also organizes the local retention commitments of member libraries. Through these venues the ULS both ensures that items in our collection will be preserved and

accessible to scholars into the future, and that titles in other library's collections will be available to our researchers. These commitments free members from the responsibility to retain a comprehensive corpuses of print materials locally.

## 1.3 RECOGNITION

### Grants

- The University of Pittsburgh University Library System (ULS) has received a one-year, \$180,000 grant from the Henry Luce Foundation to support the creation of a feature-length documentary film titled *Unreconciled Memories: Reflections on China's Cultural Revolution*, a collaboration between the ULS East Asian Library (EAL) and Dartmouth College.
- Librarians Tyrica Terry Kapral and Aaron Brenner, along with Matthew Lavin in the English Department, received a \$37,478.53 Mellon Grant for a project called From Collection Records to Data Layers: A Critical Experiment in Collaborative Practice, which is part of a larger initiative entitled: Collections as Data: Part to Whole, which aims to foster the development of broadly viable models that support implementation and use of collections as data.
- Tyrica Terry Kapral and Robin Kear have received a program grant from the Great Stories Club at the American Library Association. As part of the Great Stories Club series on Truth, Racial Healing & Transformation, Pitt librarians Robin Kear and Tyrica Terry Kapral will work with teens at Pitt's Community Engagement Center (CEC) in Homewood to read and discuss stories that explore questions of race, equity, identity, history, institutional change, and social justice.
- The ULS received a \$35,100 Seed Grant from the University to support the Contemporary Chinese Village Data (CCVD) project. CCVD will create an open resource of primary data extracted from the ULS's collection of Chinese village gazetteers. This initiative, the first of its kind in the world, will produce a dataset of significant research value based on the East Asian Library's growing collection of Chinese village gazetteers. CCVD intends to make selected data available via an open-access, user-friendly platform that allows researchers and students world-wide to search and sort data concerning China's most basic administrative unit: the village. Lacking lowest administrative unit data has been a gap in the Chinese studies field. Therefore, ULS' initiative - CCVD - will benefit the global community of Chinese studies.
- ULS Archivist Zach Brodt was awarded \$9,247 by the American Institute of Physics to support the processing of University Archives collections pertaining to the University of Pittsburgh's Physics Department. Collections included in this project are the papers of theoretical physicist and environmental lawyer Edward Gerjuoy; the papers of plasma physicist and entrepreneur Wade Fite; and records pertaining to the construction and use of the Van de Graaff accelerator, an instrument that was one of a kind when it opened at Pitt in 1966. Together, these collections will provide researchers access to records documenting one of the most accomplished physics departments during the Cold War period.

### Memberships & Awards

- Liaison Librarian Robin Kear was appointed as a member of the American Library Association's (ALA) Center for the Future of Libraries Advisory Group. The Center works to identify emerging trends relevant to libraries and the communities they serve, promote futuring and innovation techniques to help librarians and library professionals shape their future, and builds connections with experts and innovative thinkers to help libraries address emerging issues.

- Librarian David Grinnell from Archives & Special Collections has recently been elected Pennsylvania Caucus Representative for the Mid-Atlantic Regional Archives Conference. The Caucus Representative serves a two-year term, starting July 1<sup>st</sup>, and is a member to the Steering Committee (which is equivalent to a Board of Directors).
- Vanessa Gabler from the Office of Scholarly Communications and Publishing has been elected to the Board of the Library Publishing Coalition, an independent, community-led membership association of academic and research libraries and library consortia engaged in scholarly publishing. She will serve a three-year term from June 2018 to June 2021. The ULS was one of the original members of the LPC, and Vanessa has served on the Program Committee for several years.
- Faye Leibowitz was selected to serve as a member of the ALA Association for Library Collections and Technical Services Committee on Cataloging: Description and Access “RDA Toolkit Restructure and Redesign Project (3R) Task Force.” This main goal of the Task Force will be to assist in evaluating the updated version of the cataloging tool RDA Toolkit.
- Crystal McCormick Ware was announced as the staff winner of the University of Pittsburgh Iris Marion Young Award for 2019.

### Publications

- *Collaboration Adventures with Primary Sources: Exploring Creative and Digital Outputs* by Jeanann Croft Haas, University of Pittsburgh and Jennifer Needham, Deerfield Academy, *Journal of Interactive Technology and Pedagogy*, (January 2019)
- *John Filson’s Kentucke: Internet Search Yields ‘Hidden’ Manuscripts* by Ed Galloway. *Manuscripts*, Vol. 70, No. 3 (Summer 2018)
- *Collecting Oral History in an Academic Library: The CR/10 Project* by Sandi Ward. *Journal of East Asian Libraries*, No. 167 (2018)
- *Medieval Monsters: Terrors, Aliens, Wonders*; book review by Kiana Jones, published in *ARLIS/NA Reviews* (September 2018)
- *Designing for the Near Future* by Jeff Wisniewski, *Online Searcher*, (May-June 2018)

## 1.4 GOALS & STRATEGIC ACTION PLANNED FOR NEXT YEAR

*Please include highest-priority goals and strategic actions planned for the upcoming year. Examples could include significant recruitments, new program development, process improvement, curriculum development/revisions, grant funding, community engagement, enrolment, etc. These goals and strategic actions can carry from previous years.*

### Hillman Library Third Floor Renovation

Hillman Library’s third floor is scheduled to close in March of 2019 for renovation, and to reopen by Spring 2020. Major programmatic changes to the floor include a significantly enhanced presence for Archives & Special Collections, whose space will include a large reading room, classroom, and both physical and virtual displays capabilities. In addition, the floor will be home to a space called the Text/Context Lab. The Text/Context Lab, located on the third floor of Hillman Library, will provide an active environment for the creation, manipulation, and disassembly of text, as well as the wide variety of forms and media in which text is represented, experienced, and stored. The lab is developed and operated as a partnership between the University Library System (ULS) and the Center for Creativity (C4C).

### Strategic Recruitments

Over the last year we have recruited for a number of new positions in areas of strategic importance, including hiring an Entrepreneurship Librarian, an Events Coordinator to support expanded programming and outreach, and a Digital Scholarship Librarian, to name a few. In the coming year we continue these efforts, with two important searches: first, recruitment for the position of Associate University Librarian for Research and Learning. This position will have the critical responsibility of providing strategic directions for expanding our research support services. Second, we are recruiting for a position of which a major responsibility will be identifying grant opportunities and providing grant writing support. We have made great strides over the last year in increasing our grant activity and, to accelerate this momentum, seek to have more dedicated grants support in the organization.

### **Process Improvements: Reference Services and Interlibrary Loan Services**

In the coming year we plan an end to end review of ULS reference services and interlibrary loan services (workflows analysis and recommendations, resource sharing across ULS, quality monitoring and ongoing training), to ensure efficient and effective service for Pitt and the broader community.

### **New Library Management System Implementation**

During FY20, the ULS will implement a new integrated library system to provide cost effective management of library resources and processes and to offer services that meet the current and future needs of the University of Pittsburgh community. The system will replace the Ex Libris Voyager Library Management system in use since 1998 at all University of Pittsburgh libraries, including the University Library System and its five campuses, the Health Sciences Library System, and the Barco Law library.

### **From the ULS FY20 Planning and Budget Committee**

These proposed initiatives were developed through a highly-participatory, organization-wide planning process, and are currently under consideration for adoption for FY20.

- *Collective In-Service Training Day*: Establish a common level of understanding of designated topic or approach that can be applied and referenced in both internal and external exchanges. The 2019 iteration will focus on diversity and inclusion.
- *ULS Membership Evaluation*: Evaluate ULS memberships to review value to organization, maximize return on investment, facilitate opportunity sharing, and enhance professional standing.
- *Required Supervisory Training*: Demonstrate campus leadership by requiring a standard level of training for all employees hired, promoted, or shifted into a supervisory role.
- *ULS Student Advisory Board*: Develop a robust understanding of the behaviour and needs of the undergraduate and graduate student communities by establishing a formal mechanism for dialogue and information exchange.
- *Open Education and Textbook Affordability*: Promote textbook affordability through data-driven reserve acquisitions, collaboration with the University Bookstore, and support of the Open Education targeted outreach initiative.
- *Digital Accessibility Audit*: Prioritize inclusive accessibility and functionality of ULS digital landscapes through comprehensive review of websites, repositories, electronic records, and vendor content.
- *Physical Accessibility Audit*: Prioritize inclusive accessibility and functionality of ULS physical environments through comprehensive review of departmental, off-site, and regional facilities.

## 1.5 CHALLENGES & CONCERNS

*Please include challenges/concerns you see on the horizon that may serve as an impediment to achieving your goals for the new year. Also include ideas for remediating these potential barriers.*

The library collections budget has been static for the last several years. In order to maintain our existing subscriptions, we have had to supplement our acquisitions budget from both operational and salary budget lines. We are grateful for the increase of \$369,000 for collections for the coming year but do note that the collections budget has been underfunded for many years, so restoring the collections budget will be a multi-year effort.

## Section 2: Measures of Success

*Measures of Success are SMART goals. S=Specific, M=Measurable, A=Achievable, R=Relevant, T=Time Bound. Indicators identified in this section can be top unit-specific, strategic or key performance indicators (KPIs).*

**2.a Top Unit-Specific Indicators** reflect aspects of a Top ranked peer Unit that we aspire to reach that can't be mapped back to a Plan for Pitt goal. These indicators are related to external reputation and ranking.

**2.b Strategic Indicators** reflect an aspect that the individual Unit is trying to **strategically change**. Strategic indicators should focus on areas that an individual Unit will have significant impact on through programmatic or investment choices. Hence, for each strategic indicator listed, there should be a defined strategic action(s) that will drive the desired change (see Section 3). The preference is that Measures of Success are linked to the Plan for Pitt scorecard, however, it is recognized that individual Units may have measures specific to their region/discipline.

**2.c Key Performance Indicators** are elements that a Unit tracks on a routine basis to ensure operational success and the overall health of the unit. For KPIs, Units are not actively trying to change the trajectory – the focus is more on maintaining a given trend within a defined threshold. These are “management 101” indicators.

Terminology:

- **Baseline** is the numerical value (count, rate, percentage, etc.) at the point when measurement begins. Indicate the year when measurement begins for each indicator.
- **External Benchmark** is the numerical value of the indicator among institutions/organizations outside of Pitt.
- **Current Year** is the numerical value of the indicator in the reporting year.
- **Target** is the numerical value for the indicator that the unit seeks to reach.
- **Measurement Period** is the anticipated number of years that it will take to reach the target (the measurement period can differ by indicator).

- Use the **Trend** column to convey how the numerical value of the indicator has changed over the course of the measurement period.

Additional information about the indicators – benchmarked peers, justification for target, etc. – should be included in the appendices.

### Section 3: Strategic Action (How are we going to change it?)

Please include the unit-specific strategies and specific strategic actions that your Unit has taken (or will continue to take) to meet the goals identified in Section 2: Measures of Success. Also, unit-specific strategies that do not map back to a University strategy can be included. "Strategic Actions" are milestones that need be achieved to support the unit strategy. "Status" should include what milestones you have achieved to date, and as appropriate, prior year and future milestones. "Linking" should include a list of strategic indicators from Section 2.b. which the unit strategy is trying to change – all strategies should support at least one strategic indicator. You may also include in this column additional Plan for Pitt strategies supported by this action (secondary strategies). When listing additional secondary strategies, you may reference by number – for example write "1.2" instead of writing the full strategy "Serve as a leader in personalizing educational experiences". Note: only fill in boxes where corresponding action is occurring.

When defining strategic action consideration should also be given to the drivers within the strategic plan. The three drivers include: partnering for impact, harnessing information, and shaping our culture.

A required library assignment and visit are part of the class syllabus and have been an integral part of the program for years. In 2018, 15 librarians and 19 library specialists helped to conduct these sessions. Before | Strategic Indicator(s) – Section 2.b.1 2.b.4 and 2.b.8<br><br>Secondary Strategies 1.2 |

|   | Reduce local barriers to participation in global information sharing                             | Provide ULS support for the Civic Switchboard project, which helps libraries become more engaged in their local civic data ecosystems | The Civic Switchboard project, a federally funded Institute for Museum and Library Services National Leadership Grant awarded to the ULS, held two day-long workshops at national conferences, with over 40 attendees from 20 different regions participating. The project also continues to develop a public guide for libraries working with civic data, online at <a href="https://civic-switchboard.gitbook.io/guide">https://civic-switchboard.gitbook.io/guide</a>   | <i>Secondary Strategies 6.5</i>                         |

|  | Actively collect and preserve scholarly and cultural materials that amplify under-represented voices and global perspectives. | Create globally focused data resource. | In July 2018 the inaugural Pitt Seed program awarded 23 proposals from Pitt faculty and staff members. These projects, chosen from 171 applicants, are designed in a manner that “broadens the ways in which you can directly and actively contribute to Pitt’s strategic transformation,” Chancellor Patrick Gallagher said in announcing the program. Contemporary Chinese Village Data (CCVD) is one among 23 proposals. CCVD will create an open resource of primary data extracted from the ULS’s collection of Chinese village gazetteers. This initiative, the first of its kind in the world, will produce a dataset of significant research value based on the East Asian Library’s growing collection of Chinese village gazetteers. CCVD intends to make selected data available via an open-access, user-friendly platform that allows researchers and students world-wide to search and sort data concerning China’s most basic administrative unit: the village. The lack of lowest administrative unit data has been a gap in the Chinese studies field. Therefore, ULS’ initiative - CCVD - will benefit the global community of Chinese studies. |  |
